**HEADLINE: Access Technologies Releases MAS-5202Ti Two-Way Marine Box Speaker**

**BODY:**

Access Technologies is pleased to announce the availability of the new Marine 2-Way Box Speaker, MAS-5202Ti. The MAS-5202Ti is design to handle the rigors of the marine environment with 400Hr. UV stable finish and powder coated aluminum grille and bracket assembly. With it's 6-ohm impedance the MAS-5202Ti is perfectly suited for Outdoor, Spa and bathroom installations.

The MAS-5202Ti is unique with its large woofer small box design. The cabinet measure only 9½"x7¼"x6". The 5 ¼" deep throw woofer provides deep bass response from an enclosure of a size of our competitors using a 4-5" woofer. In addition the MAS-5202Ti contains a 1" Titanium dome tweeter with swivel function for optimum high frequency response in any mounting position.
