HEADLINE: Patent awarded to Access Technologies's MRCV-300 Marine Radio Cover

BODY:

US Patent office has awarded US patent #6921141 covering several aspects of Access Technologies Marine Radio Cover model MRCV-300. This patent covers several of the unique aspects of the MRCV-300 and is the culmination of over five years of research and engineering that Access Technologies has devoted to this product. Access Technologies continues to design and develop state of the art audio products for the marine industry.
